### SMK Consultant's Environmental Policy

SMK Consultants provides a wide range of services including surveying, irrigation design, environmental investigations and town planning to northwest NSW, southeast Qld and rural areas of the Northern Territory, New Zealand and Sudan.

SMK Consultants environmental policy aims promote and maintain environmentally responsible practices for the benefit of Clients, employees and the community in which we conduct our business.

We will conduct and grow our business in a manner which protects the environment and demonstrates good stewardship of our natural resources to maintain or improve the bio-diversity of our region and areas of work.

While the Directors recognise that they are responsible for the Company's environmental performance, all Company staff are held accountable for their actions which affect the Company's Environmental performance and obligations.

SMK Consultants promotes continual improvement using our professional environmental knowledge and practices to address the environmental costs and impacts of our activities and services provided.

This is being achieved by:

- Complying with applicable regulations and standards to which we subscribe.
- Supporting pollution prevention and minimisation programs.
- Using materials and energy efficiently to conserve natural resources.
- Minimising the emissions that contribute to climate change.
- Reviewing environmental objectives and monitoring performance.
- Co-operating and developing liaisons with the community, suppliers, contractors, government agencies and other organisations engaged in improving the environment.

SMK Consultants are committed to operating our survey, design, planning and investigation services in the office and field in a manner that ensures this policy is met at all locations.
